New is the fime to Subscribe. The winter evenings are at hand, and every family should lay in a good stock of winter reading. We shall spare no pains to make the Ohio Star one of the very best papers for the fire-side circle. We shall pay great attention to its miscellaneous department, and with choice tales, poetry, entertaining anecdotes, news, &c., shall, during the

winter, afford a rich treat for our readers. The present volume (the XXIII.) of the Star. closes on the first day of December, when a large amount will be due us on subscription.

We intend to spare nothing within our reach. which can contribute to the interest or value of our columns. As an earnest of this, we have the pleasure of announcing that we have engaged Mrs. HELEN L. BOSTWICK,

of Edinburgh, as a regular contributor. Mrs B. has been an occasional contributor to our columns for a long time, and her poetical productions, as our readers can testify, are of a high order. We expect an Anti-Slavery Tale from her pen, will be in readiness for publication, upon the completion of the Tale by T. S ARTHUR announced be-

The productions of Mrs. B. have been widely circulated, through the press, and with high commendations. It gives us pleasure to be able to announce so valuable an accession to our Literary Department, and the announcement we know will of all directly interested in their own as well as their chil be highly appreciated by our readers.

In the first number of the next volume (Dec. 8,) we shall commence the publication of Insubordination, or the Shoemaker's Daugh-

Insubordination, is one of his very best productions. Its publication will occupy several weeks-and will itself, be worth a year's subscription.

Now is the time to subscribe, that all may begin with this splendid tale. Will not our good friends represent the winter attractions of the Star to their neighbors, and get them to subscribe.

The following is an extract from a letter from the Washington correspondent of the New York Tribune. We recommend it to the particular attention of those indiscreet friends of the great lawyer, who, not sati-fied with conceding to him all that was really great in his character, seem determined, also, to canonize him as a Saint, and to show no quarter to those who will not endorse their claims on this score: - Worcester Spy. Mogadore, Summit Co., Get., 1852.

Dr. Tenns—Dear Sir. I take pleasure in presenting a few facts concerning my health and treatment, which may prove interesting to invalids, should you choose ta publish them. My health first became poor in the winter of 1849, and notwithstanding my constant treatment by an Akron Physician, continued to grow worse until June, when my strength was gone, and there seemed little prospect of ever being better.

A skillful Physician at Mogadore, was employed during the entire summer; but being so little improved, friends advised me to employ a "Water Ductor," from Georgetown, whose advice was followed for some time, with about the same result. Yellow Dock and Sarsaparilla were theroughly tried, and then I submitted myself to a Thompsoni-

DR. GUYSOTT'S IMPROVED EXTRACT OF YELLOW DOCK AND SARSAPARILLA The original and only genuine preparation for the permanent cure of Consumption and disease of the Litings, when they are supposed to be affected by the free use of Mercury, Iron, Quinine, &c., &c.

Let all who wish to purge the blood from impurities,

and prepare the system to resist epidemies, resort to "Guyaott's Extract of Yellow Dock and Sarasparilla," which is proving itself an antidote for many of the most malignant discuses that flesh is heir to, and they will never be disappointed; for in this remedy the public faith has never wavered-never can waver; for it is founded on experience, just as their want of faith in oth er and spurious compounds is founded on experience -They fly from mineral nostrums to seek hope, life and igor from this purely regetable remedy, however broken own in bealth and spirits-however loathsome to himself and others, let no one despuir of recovery; let the atient only understand that his hope of physical restoution lies only in "Gnyson's Extract of Yellow Dock nd Sarsaparilla," and persuade him, for his life's sake, to try it, and we have no hesitation in predicting his speedy restoration to health.

The Shaker prepared "Yellow Dock," and the "Red fonduras Sarsaparilla," are the invaluable remedial gents from which Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is formed, and the Laboatory of Dr. Guysott has given us the virtues of these coots in their perfection. His preparation contains al he restorative properties of the roots, combined and oncentrated in their utmost strength and efficacy. Experiments were made in the manufacture of this nedicine until it was found that it could not be further mproved:

Accordingly, we find it resorted to almost universally n cases of Hepatic, Scorbutic and cutaneous complaints, or general prostration of all the vital powers, and all hose tormenting diseases of the skin, so trying the paence and so injurious to health.
